

# Empower your quality

Empower™ Chromatography Data System (CDS) helps you achieve the highest quality results in your laboratory. With a suite of flexible functionality that grows to meet your changing needs, Empower is **easily scalable from a single workstation to an enterprise-wide network**, where you can work at the bench, across sites, and even remotely with on premise or cloud options. In an Empower environment, records are traceable so you always have full control of your data. Save time, automate tasks, and eliminate data vulnerability with Empower. You don't have to settle for less when it comes to the quality of your data.
